CONE-SHAPED CONCEALED HEAD SCREW

CE
EN 14592

AGGRESSIVE ENVIRONMENTS

A4 | AISI316 stainless steel version ideal for very aggressive environments, for acidic, chemically treated wood and very high internal moisture (T5). KKT X version with short length and long bit for use with clips.

COUNTER THREAD

The inverse (left-hand) under-head thread guarantees excellent grip. Small conical head to ensure it is hidden in the timber.

TRIANGULAR BODY

The three-lobed thread makes it possible to cut the wood grain during screwing. Exceptional timber pull-through.
